A GUIDE TO D.I.Y DISINFECTANT FOR HOUSEHOLDS

GATHER ALL THE MATERIALS NEEDED

You will need the following:

- bucket
- big bottle
- stick for stirring
- liquid bleach (Should contain 5% active Chlorine) or Chlorine Powder
- spray bottle
- water
- gloves
- face mask
- apron

START MIXING!

DIRECTIONS FOR LIQUID BLEACH

1. Pour 900 mL of water in a bucket.
2. Add in 100 mL of Bleach.

DIRECTIONS FOR POWDERED BLEACH/CHLORINE

1. Add 20 grams of powder to 2 liters of water.
2. Stir using the stick. Make sure to wear gloves, face mask and apron for protection.
3. Transfer a portion of the solution on a spray bottle for ease of disinfection.
4. Open the windows to allow airflow inside the house while disinfecting.
5. Avoid the kitchen utensils. It is not safe to use chlorine solution on utensils.
6. Store the solution on a bottle and label it accordingly for proper storage. Keep out of reach of children.
